EXPERIENCE

Ph.D. Researcher - Quantum Foundations

CEA-Saclay

Oct 2022 – Oct 2025 · Paris, France

- Designed and executed a three-year independent research programme at CEA-Saclay — scoping original research questions, managing planning and revision cycles, and coordinating deliverables across multiple concurrent outputs including a 100,000-word thesis and peer-reviewed publications.
- Conducted critical analysis of large bodies of technical literature, identifying inconsistencies and synthesising findings into structured, accessible outputs.
- Developed expertise in translating highly technical scientific content across disciplinary boundaries — producing peer-reviewed publications, conference presentations, and public-facing outputs for audiences ranging from specialist researchers to non-specialist stakeholders.

OTHER EMPLOYMENT

Private Tutor

Self-employed

Sep 2021 – Present · Remote

- Delivered 1,000+ hours of one-to-one instruction in physics and mathematics, managing long-term client relationships and adapting communication style to individual needs.

Team Leader

Pied Piper Activities South Ltd

Jun 2021 - Aug 2021 · Eartham, UK

- Supervised children in structured activities, ensuring their safety and wellbeing, and engagement during the COVID-19 crisis.

Sales Team Member

Next

Sep 2020 – Jun 2021 · Bristol, UK

- Delivered client-facing service in a fast-paced retail environment, developing communication, problem-solving, and teamwork skills.

PUBLICATIONS

Ph.D. Thesis
Bethany Terris, 2025. *Weak Values in Quantum Mechanics: Conceptual Questions.*

Journal Article
Bethany Terris, 2025. Weak Particle Presence. *Foundations of Physics.*

Preprint
Bethany Terris, 2026. *The Informational Observer in Relational Quantum Mechanics.*

PERSONAL PROFILE

Ph.D. researcher with experience in leading complex projects and communicating technical concepts across disciplines. Focused on translating physics-based thinking into clear strategy and real-world applications.

EDUCATION

Ph.D. Philosophy of Physics

Université Paris-Saclay

Oct 2022 – Oct 2025

Master Philosophy of Physics

University of Bristol

Sep 2020 – Sep 2021

BSc (Hons) Physics with Philosophy – equivalent Licence

University of York

Sep 2017 – Jul 2020

COMMUNICATION & OUTREACH

Academic Writing Podcast — Guest (2026)
Discussion of common sources of misinformation in quantum mechanics and strategies for addressing them through clear, conceptually rigorous communication.

University of Bristol — Invited Speaker (2025)
60-minute invited lecture on weak values in quantum mechanics.

IQSA Conference — Speaker (2024)
30-minute talk on quantum 'presence'.

STRENGTHS & SKILLS

Quantum theory · LaTeX · Presentation · Mathematical modelling · Academic publishing · Risk assessment · Project coordination · 1:1 instruction

LANGUAGES

English (Native)
French (B1)
